90-94%	60-64%
89-94%	56-60%
85-89%	51-56%
81-85%	47-51%
77-81%	42-47%
72-77%	38-42%
No Data Available	

## MetaData | Notes

Projection: Cylindrical Equal Area

Data Sources: World Bank, CIA factbook

Notes: Data is for the most recent recorded literacy rates of adults over 15. Where data was unavailable from the World Bank, it was attained via the CIA world factbook. Data breaks are determined by 1/4 standard deviations in the data set. This choice was made to best visualize the differences between the countries in all zones of the spectrum equally.
